

## Member Update

What a difference a week makes. In the last week a large part of the country has had their lives significantly altered, and life here at the Club has been no exception. In the name of public health, we've gone from a 200 seat restaurant to one that seats 10. We've adapted the full lunch and dinner menus on the fly for takeout and delivery. Fitness programs have been rebuilt from the ground up. A round of golf looks and feels a little different, but it's still a round of golf. Our aim is to offer the widest array of services possible, while following best practices to slow the spread of COVID-19 and balancing the best interests of our members, employees, and the community at large.

Thank you for your continued support as we head into the season under unexpected circumstances. A running list of changes and updates can be found [here](#).

## Dining

- Lunch is available only as [delivery](#) (for members within Glenmore and Rivanna Village) and [takeout](#), from 11am-5:30pm.
- The 19th Hole is open 11am-5:30pm, limited to 10 people maximum. Time limits may be established if people are waiting.
- For dinner, we are accepting reservations for up to 10 people at 5:30, 6:30, and 7:30. Call the Grill at 817-0507 to reserve a seating. Tables will need to clear in one hour. We will be rotating tables and not seating unrelated parties in the same area. [Takeout](#) and [delivery](#) of the dinner menu is available from 5:30-8:30, Tue-Sun. Please call the Club to make a reservation and avoid disappointment as we are limited to 10 patrons maximum in the building at any one time.
- Our ABC license allows us to offer beer and wine off-premises, so a limited [selection](#) has been added for to-go and delivery. If your favorite isn't there let us know and we'll do our best to add it.

- The self-serve coffee station has been removed for the time being.

## Golf

- To encourage social distancing, we have suspended the two-per-cart rule (except for members of the same family) for both private and rental carts. We'll make every effort to have one rider per cart when requested. Walking is encouraged.
- Our cart cleaning process has been enhanced by wipe downs with a sterilizing solution. We're removing coolers to prevent multiple touches. Sand bottles will remain on carts and we'll sterilize them after every round.
- Bunker rakes have been removed to prevent multiple touches. A new local rule applies to bunkers: you can lift and place your ball near where it has come to rest.
- If you'd feel more comfortable signing in by phone rather than in person, call the pro shop at 817-0502 to do so--or just wave at us from outside the windows.
- Leaving the flag in the hole when putting is now mandatory.
- We're testing a few different solutions to keep golfers from having to reach all the way into the hole. More to come soon. In the meantime, gimmies encouraged!
- The Women's Golf Association has delayed the start of their 2020 season, tentatively targeting Thu 5/7 for the opening luncheon and play. If you have questions, contact [Vicki Sundgren](#).
- Coffee remains available in the pro shop, but please use the Lysol to spray surfaces before and after you use them.

## Fitness

- Usage of the Fitness Center is limited to 10 members at any given time. This includes both the equipment room and studio space.
- While we've had to cancel some classes due to weather, there are some we've been able to move either outside or to the clubhouse ballroom. These classes are also limited to 10, but we still have at least a few slots open in all of them, more info and sign up [here](#).
- The ice machine has been shut off, the water fountain disabled, and the coffee station removed. Please bring your own water.
- Members will continue to be required to clean the equipment they're using prior to and after each use. This includes all machines, free weights, stability balls, mats, etc. Everything. Failure to comply will result in suspension of privileges--no warnings.

## Racquets

- Courts are open as normal. As we move into tennis season one COVID-19 related concern we're working on is the handling of tennis balls. We're testing a solution where each server will have their own balls that touch no one else's hands. It'll create some minor delays, but will allow play to continue with maximum safety. Thanks in advance for being patient during the adoption and fine-tuning phases.
- Water stations have been removed from the courts, so please bring your own.
- More info on racquet sports coming tomorrow.

## Thanks to our Members

What we're having to do with cleaning and rules in the fitness center and fitness classes is far beyond anything a country club has had to do in the past and it would not be possible without member buy-in and cooperation. Mark Ryman would especially like to call attention to the care members are taking in those areas--it's a real difference maker. Thank you from all of us...and Mark says keep it up!

We've received many kind words over the last week, from members young and old, recently joined and founders. We greatly appreciate your support, and those kind words, as we navigate uncharted waters.

## New Member Welcome

As a brief nod to normalcy, please welcome Susan and Randy Rivinus to the Club. They're downsizing from a farm property in Palmyra to a newly built home on Bothwell Ln. Randy is a retired engineer and Susan enjoys art, antiquing and wine. Let's all work together to "flatten the curve" as best we can, so we can properly introduce Susan and Randy to the Club as soon as possible.

Suggestions are always welcome at:
